GILLETT'S JAVEL

For laundry "white" clothes and "them" use this wonder-working bleach! Gillett's Javel removes stubborn stains—saves wear of hard rubbing. So concentrated—only one bottle makes 4 quarts of Javel water. **CHAS. J. KODOLLA, PROPRIETOR OF CHAMBERLAIN HOUSE**

But Can't Ship It Argentine Has Grain For Hungry Europe

By Laurence F. Stuntz

BUENOS AIRES, Oct. 14.—(AP)—Argentine farmers have grain for hungry Europe, but getting it to port and loaded on ships will be the bottleneck.

THE UNITED STATES army, faced with hunger in the occupied zones, has sent a mission here to discuss how much grain is available, how much can be shipped and how much it will cost. Army headquarters in Europe said they needed 1,000,000 tons of wheat and 500,000 tons of corn.

Grain trade circles estimate there is enough surplus grain inland to fill the army's needs. The railroads say that bringing 1,500,000 tons to port in 90 days is not impossible. But shipping men said they needed 1,000,000 tons of wheat and 500,000 tons of corn.

A roundup of estimates indicates that 1,000,000 tons is about the maximum which could be shipped in 90 days from the signing of any contract. GRAIN MEN say they aren't sure how much wheat and corn are still on the farms or in inland elevators. This year's wheat crop of around 6,000,000 bushels was one of the largest on record. Roughly 2,500,000 tons have been shipped and Argentina's 3,000,000 inhabitants don't eat a lot of what is left.

Expresses Approval New Housing Plan

Approval of the Dominion government's new rental, veteran housing plan was expressed today by Mayor Harry Ainlay, who stated that the rental levels were much lower than could have been expected without the assistance of the federal plan.

He said the new program of 12,000 homes for 1948 would offer relief to the housing situation in Canadian cities now subsidizing home-building under Dominion housing schemes.

He commended the more generous terms offered municipalities in the announcement made by Mr. Hon. C. D. Howe, P.C., minister of reconstruction and supply, at Vancouver, adding that by agreement in former plans the city received payments of from \$24 to \$30 in lieu of taxes, while under the proposed plan the city would receive \$70 to \$80 depending on the size of the home.

Even with the more generous payments offered under the proposed plan, the city would be called upon to give generous subsidization as the average taxes on the type of home to be erected would be from \$100 to \$120 annually, Mayor Ainlay said. The commissioners will make representations to city council who may have studied the complete details of the new proposal.

He added that Edmonton, if the terms of the agreement are favorable, could utilize 1,000 of the proposed homes. At present, he pointed, there are 1,000 in the city's housing bureau for 2,000 accommodation units.

Sweater Queen

Carol Brooks, of Greenfield, N.Y., is no ordinary sweater girl. She has chosen from 11 other finalists to be the 1947 National Sweater Girl. Her statistics are: Height, 5 feet, 10 inches; weight, 120 pounds; 32-inch bust measurement, 34-inch waist and 34-inch hips.

Douglas Stewart Gets Promotion

Douglas Stewart of Trans-Canada Air Lines reservation office staff in Edmonton since his return from overseas two years ago, has been promoted to the position of office manager in TCA's Winnipeg office. It was reliably learned here today.

A star outfielder with the New Edmonton Hotel Eskimos of the Alberta Senior Baseball League during the last season, Stewart was born in Edmonton and has been prominent in sports circles for many years.

His last TCA staff here in 1945 and the following year went overseas with the RCAF. Taken prisoner when the bombing plane on which he was a crew member was shot down in a raid over Germany, he remained in a Nazi prison camp until liberated by advancing Allied armies in 1945.

On his return to Edmonton after the war he went back to TCA and was in the air lines office in the Edmonton hotel. Mr. Stewart will leave next week on annual vacation and expects to return to his present Winnipeg post on returning from his holidays.

Charge Hymn Writer With Sex Offense

MONTPAT, Fla., Oct. 14.—(AP)—Bernie Middle, hymn-writing, state Senator from Dartmouth, Fla., charged with improper conduct toward a 16-year-old girl and was ordered to stand trial Oct. 21. The legislator-teacher, father of nine children, was charged with violating a statute against founding a girl under 16 years of age. He submitted his resignation as principal of a rural school where the state alleges the offence occurred.

Results Still Indefinite

TAMPA, Fla., Oct. 14.—(AP)—Scientists made initial experiments Monday in attempts at calming a destructive storm by dropping dry ice on cloud formations, but the results were uncertain.

A MONTH'S study of hundreds of pictures and a thorough study of extensive data collected will be needed to determine whether valuable information has been obtained on hurricanes.

A flight of three other planes into the winds of a tropical storm 90 miles from the tip of Florida, Fla., was termed a success as far as operation of Monday's plan was concerned. There was no immediate indication that it turned the clouds into rain or snow.

Only 80 pounds of dry ice were fed into the storm. An automatic device, similar to those on road sweepers, was used to distribute ice in a thin line over the clouds.

Scientists, using radar, waters created grave problems of health and housing for parts of the lower Florida coast coast last Saturday.

WATER was reported still rising in the rich Everglades farm lands where Government and private residents have been forced to evacuate. Three converted army bombers took part in the dry-ice experiment.

Scientists flying with the operation emphasized it was not a hurricane-busting job, but rather a quest of information as to possible ways to dissipate storms in the future.

Those engaged in the test were lighted, but it was understood the project carried a high degree of responsibility due to possibility of criticism in event storm damage occurred after the experiment. An informed source expressed that a man losing a house in a remote area of the storm might claim the experiments were responsible.

Re-Affirm Ruling On "Law Water" Oil

WASHINGTON, Oct. 14.—(AP)—The supreme court re-affirmed Monday its decision that the United States has paramount rights over oil-producing lands three miles from the California coast watermark. However, it held up the federal decree defining those rights. The ruling turned down a California petition for a rehearing. The state contended that the decision handed down last term would deprive all coastal states of valuable property rights.

Backmann is believed to have been indicted in the 1930s.

U.S. Plans to Sell Highway Buildings

ANCHORAGE, Alaska, Oct. 14.—(AP)—Lowell E. Puckett, administrator of the U.S. Bureau of Land Management, announced here Monday that approximately 233 buildings located on the Alaska Highway between Big Delta Junction and the Alaska-Canada border will be offered for sale next week as surplus property.

The buildings are grouped into 23 sales units consisting of barracks, warehouses and other camp structures. Purchasers will be required to remove the buildings within a specified time. The construction camps stretch from the Canadian border to the Alaska-Canada border along the highway.

Try Halt Big Storm With Dry Ice Shower

TAMPA, Fla., Oct. 14.—(AP)—Scientists made initial experiments Monday in attempts at calming a destructive storm by dropping dry ice on cloud formations, but the results were uncertain.

A MONTH'S study of hundreds of pictures and a thorough study of extensive data collected will be needed to determine whether valuable information has been obtained on hurricanes.

A flight of three other planes into the winds of a tropical storm 90 miles from the tip of Florida, Fla., was termed a success as far as operation of Monday's plan was concerned. There was no immediate indication that it turned the clouds into rain or snow.

Only 80 pounds of dry ice were fed into the storm. An automatic device, similar to those on road sweepers, was used to distribute ice in a thin line over the clouds.

legitimate interests. They already have one, in the international clearing-house that is known as the General Assembly of the United Nations. There they can obtain all the protection that a world-jury thinks they need, and approval of any and all aims they advance which are consistent with the rights of other nations.

The creation of the "new" organization, however, is not in any way a device which will not bear the light of day.

Where Are the Police?

The seven Arab states may be bluffing, or they may intend to start a shooting-war if the United Nations undertake to mark off one section of Palestine and set up a Jewish state. They are reported to have massed troops just beyond the border and threaten that these will march in if British forces withdraw. The stage is thus set for turning the Holy Land into a battleground where Jews and Arabs would fight out their quarrel if left to themselves.

Whether the Arabs are bluffing or mean bloodshed, the states are using force to influence a decision by the United Nations. That is in itself an offence for which they should be made to answer. If the world peace organization can only intervene in a dispute where there is no prospect that either disputant will resist its decision by force, will inspire neither confidence nor fear and might as well stop posing as a regulator.

The Security Council should have in readiness the international force which the Charter requires it to employ to enforce its orders in just such a situation as now exists in and around Palestine. Where are these policemen?

They Knew What It Means

The Canadian Congress of Labor had a lively session when the delegates faced resolution to condemn imperialism whether communist or capitalist. For once, not much attention was paid to the alleged injustices of capitalist countries. The theme of discussion was the re-birth of the empire which Russia has built up in Europe and proposes to expand into a Sovietized world.

The Reds were out in force and championed the cause of totalitarianism. Muscovite brand, with characteristic fury and a full assortment of Moscow propaganda talk. They recognized, as did their opponents, the significance of the re-birth of the Communist. For them it was a call to battle of the economic and political front, as it is to Communists in every country.

In the end the delegates supported the resolution by overwhelming vote. This is less important for what it signals. The Congress majority was the Moscow-dominated element too, had taken in what it means, and were not using themselves up to the sabotage program. It is to be hoped that people in all the democratic countries will recognize its meaning as clearly as did those delegates in the most radical labor organization in Canada.

"Outs" for the Victims

The Dominion Federation of Agriculture wants "aggressive" action to stop the losses which are being imposed on farmers by the prolonged deadlock of the packing industry. The losses are said to amount already to more than a million dollars.

The Federation proposes three lines of action:

That the federal and provincial governments join in putting pressure on the companies and plant operators to get together and negotiate a settlement;

That an export board be established to arrange and direct the export of live cattle to the United States;

That all restrictions be removed, so that farmers and butchers in all parts of the Dominion can convert meat animals into meat.

This is purely a policy of defence, aimed to rescue the farmers from the role of "goats" in a dispute which they didn't start and can't end. It is not a declaration as to where the fault for the delay should be, but what terms the sheep should be ended. It simply proposes "outs" for the farmer victims of the fight.

Consumers, also victims of the wage-battle with which they have nothing to do, will heartily back these proposals, provided enough cattle are held in Canada to supply the home market.

Permission to farmers and butchers to process their own animals would at least assure the town consumer that he will not have to subsist on a vegetarian diet, which is the prospect in at least two of the larger cities at present.

Unfortunately there is little enough prospect that the united efforts of ten governments could get negotiations started forthwith. The dimmer that outlook is, the stronger the case for reviving the export of surplus meat animals and for allowing farmers and butchers to keep townfolk supplied with meat.

Voluntarism on Trial

A news survey toward the end of the first week's trial said the idea of meatless Tuesdays and eggless Thursdays had not caught on in the United States. An earlier survey said the plan would be "almost completely effective."

The early prediction was an expression of hope. The later report is given as a statement of fact. No person who observes the weather—and who doesn't do that at present—needs to be told that events do not always coincide with prediction.

It is not likely that President Truman expected voluntary saving to be one hundred per cent effective. It never has been, anywhere. People who are seriously concerned in the object deny themselves. The others don't. In his opening broadcast Mr. Truman hinted that voluntary conservation efforts failed to produce the food needed for Europe, compulsory rationing might follow.

The United States is no more responsible than Canada and every other "have" country to help save Europe from famine, except that more food can be saved there than in any of the others. The made-in-Canada voluntary campaign to save food for Europe is a good one, but both Americans and Canadians on food allowances. It may happen, though that seems remote, that starvation there will bring back the coupon books in both countries.

Routine Denial

Pravda says there is no truth in the report that the International has been revived; that the Communists are still in suspended animation; that nothing happened at the Poland conference beyond setting up an information bureau through which Russia and its satellites can keep each other posted. That as a matter of course, nobody expected the Moscow organ to come right out and say that the world revolution plans had been drawn out of the pigeon-hole again and machinery set up to foment industrial strife and political in the working capital of approved pattern. When Pravda says this has not been done intelligent people in all countries know from experience what the denial is worth.

Hinter conferred one unintended benefit on the democratic nations. He taught them that deception is the working capital of totalitarian propaganda. The Communists had already demonstrated this, but Hitler made it known to all men. That resurrected institution under the name of information bureau smells just the same, and Pravda is wasting its time trying to persuade the disillusioned that it isn't the old intermeddling, strife-provoking, democracy-sapping organization come to life again.

The Soviet states do not need an information bureau of their own to protect their

Spain Acid Test

By ELMORE PHILLIPS

Spain is the acid test of the world conquest is estimated to be over 300,000. There are no less than 114,000 prisoners still alive in Spain today, of which 19,000 are political prisoners. The "crimes" for which the prisoners are held include: Being a Trade Unionist.

The old League of Nations came fully loaded the other way when the Spanish Republic was overthrown by the Franco Fascists. They threw the lawful democratic government out of the beginning of the end. The League of Nations was a failure. The Spanish Republic was a failure. The Franco Fascists were a success.

The long-suffering Protestants have appealed to the United Nations for help. The Associated Press (December 24, 1940) carried a full report of their petition.

The British is Lord Templewood (formerly Sir James Templewood) who was ambassador in Spain throughout the war. In his recent report to the House of Commons, he stated that Franco was not really on Hitler's side in the Spanish civil war. He stated that Franco was only a puppet of Hitler.

The long-suffering Protestants have appealed to the United Nations for help. The Associated Press (December 24, 1940) carried a full report of their petition.

Backfielders Break Loose

REGINA, Oct. 14.—(CP)—Regina Caps defeated Winnipeg Flyers 5-2 Saturday to end their four-game exhibition series with two victories each.

BILL KYLE and **Ab McDougall** figured in four of the Regina goals. Kyle got three—two on assists from McDougall—and McDougall got one assisted by Kyle. **Sulkers** and **Yaachuk** scored for Winnipeg and **Van Develan** got Caps' other

After a scoreless first period, goals by McDougall and Van Deelen put Regina ahead before Sulkers got the first Winnipeg marker, and Kyle got one before the period ended. Yashuk scored early in the last period but Kyle registered twice for Regina.

Aid Is Planned For Fire Victims

ST. BASILE, N.B., Oct. 14.—(CP)—Further aid was planned today for 34 persons of 16 families left homeless in this village of 300 population after a \$15,000 fire destroyed 14 buildings yesterday afternoon.

Most of the homeless received temporary shelter in a church hall while others went to relatives and friends.

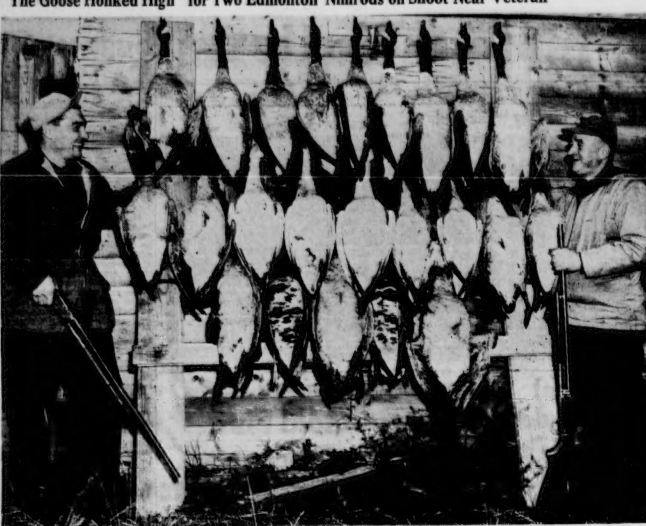

Provincial Red Cross officials at nearby Edmundston surveyed the damage and need of help soon after the fire had been controlled. The provincial disaster relief chairman, Stuart Gille of Moncton, gave instructions to spare no effort. He said that clothing, bedding, food, medical supplies and financial aid were available.

Before most residents could start their Thanksgiving Day dinners, the worst fire in Madawaska county's history started shortly before noon in a bay-windowed barn owned by Hermyle Mercier.

Trans-Pacific Mark
SYDNEY, Australia, Oct. 14.—(AP)—The first of four constellations planes purchased by Qantas Empire Airways in the United States landed here today after breaking the trans-Pacific record on the delivery flight. The plane took 40 hours and 30 minutes from San Francisco. The previous best time was 48 hours.

Return to Airfield
TOKYO, Oct. 14.—(AP)—Sakakibara-born George Truman and Clifford Evans of Washington returned to a southern Kyushu airfield today shortly after their take-off for Tokyo, when one of the two light planes developed engine trouble. The two are on a leisurely round-the-world flight which began Aug. 10 in Teterboro, N.J.

"The Goose Honked High" for Two Edmonton Nimrods on Shoot Near Veteran

These are great days for nimrods. That is they are great days for those who are lucky enough to "click." Above are two sportsmen who went out to do some shooting and came back well satisfied. They are Mike Burinik and John Onufrychuk, of this city, who chose the Veterans district for their goose-hunt. They bagged 23 birds in three days, and in one 45-minute period they brought down 10.

Produce Or Else...

Howe "Shakes Stick" At B.C. Lumbermen

VANCOUVER, Oct. 14.—(CP)—The British Columbia lumber industry has been warned by Reconstruction Minister Howe that it must meet the demands of the domestic market, or exports will be curtailed.

At a stormy session Saturday with members of the Fraser Valley Veterans' Housing Committee and representatives of the lumber trade, Mr. Howe declared:—

"Lumber operators here have got my goat. If I hear any more about shortages of lumber out here, I will stop export and flood the domestic market."

He laid the blame for delay in veterans' housing in New Westminster and Fraser Valley on the shoulders of B.C. lumbermen.

"I'm fed up with the lumber mills in B.C.," he said. "Why don't they supply lumber without a priority?"

Members of the housing committee claimed that the present system of priorities, whereby veterans must apply to Ottawa for authorized priority, had brought delays of up to six weeks.

The present system of priorities was worth a damn," said Tom Reid, Liberal member of Parliament for New Westminster. "The whole thing — veterans' housing in the Fraser Valley — has collapsed as a result of the new system."

William Mackin, New Westminster lumber operator, declared the priority system had "fouled up."

old animals had been poisoned. The pups were of championship stock and Fingard planned to show them at dog shows at the Royal Winter Fair and in Madison Square Gardens.

5,000 Homeless After Huge Fire
BOGOTA, Oct. 14.—(AP)—Only cutting. Fishermen's boats were spared by a fire last Friday night which raged the heart of Tumaco, Pacific port of Colombia. It was learned Monday. More than 5,000 persons were left homeless and the property loss was estimated at \$500,000 pesos (about \$400,000). News reports from Tumaco said no one was killed in the fire and only a few injured.

UPSET STOMACH on the Train... TWO RENNIES give instant aid

Indigestion comes at the most awkward times—on the train for instance, and miles from home or a Drug Store. But you can have quick relief at once if you carry a few RENNIES in your vest-pocket. You take RENNIES right on the spot. You need to wait for a glass of water.

UPSET RENNIES are pleasant-tasting and effective. You dissolve them in your tongue like candies. Their soothing action relieves heartburn, gas, indigestion, sour stomach, and drip gently into your stomach, thus quickly bringing to rest the distressing growing sensation of indigestion... upset stomach and heartburn.

Each Rennie tablet is individually wrapped in hygienic waxed paper, so you can always carry a few in your pocket or handbag. Easy to take—anytime, anywhere. At all Drug Stores 25c and 75c.

RENNIES don't relieve your indigestion, it's just a new year's disease.

Easy to take.... Anytime, Anywhere

U.S. Congressmen Under Mortar Fire

ATHENS, Oct. 14.—(CP)—Two United States Congressmen, Otto Jeague (Dem-Tex.) and Donald Jackson (Rep-Calif.), escaped injury yesterday when they were fired on by mortars north of Kilia, near the Bulgarian border, a U.S. embassy spokesman said.

Jeague and Jackson are members of the United States house sub-committee on foreign affairs, on a survey tour of various European countries.

The embassy spokesman said his information came from Greek military sources. He said several shells fell near the men.

No other details were available.

Mystery SOS Puzzles RCAF

HALIFAX, Oct. 14.—(CP)—A jumbled SOS message received at search and rescue division of the RCAF here Monday has rescue officials puzzled. The message was unrecognizable but came over the distress radio band. There was one hint as to the origin of the message—the ship's call letters were those of the French cruiser Triomphant. However, French ships in the North Atlantic reported that the cruiser was not near Newfoundland, from where the message came. All other French vessels in the area are safe and accounted for.

The message was received immediately. (The area is one which has been involved in Greek guerrilla operations.)

Former Moderator Is Seriously Ill

HALIFAX, Oct. 14.—(CP)—Admitted to hospital four days ago following a stroke, Rev. Robert Johnson, 85, a native of Kincardine, Ont., and former Moderator of the Presbyterian Church was still unwell here Sunday night when he was termed "not so good."

Pups Worth \$5,000 Thought Poisoned

TORONTO, Oct. 14.—(CP)—Dave Fingard said Monday he would have bodies of three Great Dane pups he owned and valued at a total of \$5,000, examined to determine whether the seventh-month

Australian Stamp To Honor Princess

NEW YORK, Oct. 14.—(CP)—The Australian News and Information Bureau reported Monday that the new Australian penny stamp with the portrait of Princess Elizabeth will be released Nov. 20, date of the princess' wedding. The bureau said that the postmaster general, Senator Cameron, in making the announcement, revealed that the new stamp would replace the penny stamp bearing a portrait of the Queen.

A carnival which toured England in the middle of the 19th century exhibited a man eight feet tall who could snap six-inch posts across his knee.

"Coffee comes from Brazil..."

"YES, GORDON, that's right. And tea comes from Ceylon, sugar from the West Indies. Canada imports all sorts of goods from countries all over the world."

"But Canada not only buys abroad, Gordon, she sells abroad, too... Grain and lumber and fish and fruit... manufactured goods and raw materials..."

All the complex operations involved in foreign trade call for the use of bank credit, foreign exchange, world market information and collections—vital services performed by Canada's banks.

THIS IS ONE INSTANCE of how Canada's 3,200 branch banks play their part in the daily life and work of Canadians.

Market Reports

Stock-Market Summary

TORONTO—Mining stocks were featureless with special interest in gold.
NEW YORK—Stocks swung upward under leadership of steel and a wide assortment of industrials.
MONTREAL—Papers continue to surge forward in active dealings.
CALGARY—News of another producer gave the market an added flip, but most gains were partially lost later.

Men, Women Over 40

Feel Weak, Worn, Old?
Want Normal Pep, Vim, Vitality?

Life's Bigger Decisions
to build??
to buy?
to rent?

No matter what you decide to do about your personal housing problem, you'll find in the Long Life you will shake their heads and say "You're making a big mistake." But you'll go ahead and do the best you can of course. The fact that "things are tough" has never so completely stopped a young man in his attempt to get some attractive under over the heads of his family.

Just one thing we have to suggest. Before you get too deep into life's problems or trying to win the war, let us suggest you give some thought to buying your own future. The North American Life representative can help by showing you simple, inexpensive plans (some begin as low as \$1 a month) which will be building up your independence even while you are busy with your last-of-the-house projects.

You see, today's decisions are more costly and more made. You see, today's decisions are more costly and more made. You see, today's decisions are more costly and more made.
